PROFESSIONAL SUMMARY

B.Tech Computer Science graduate seeking a Custom Software Engineer role to apply skills in Microsoft ASP.NET, C#, software development, object-oriented programming, web technologies, and database management. Knowledge of ASP.NET MVC, Entity Framework, SQL Server, Java, REST APIs, and SDLC with hands-on experience in developing, testing, debugging, and enhancing academic software applications.

EDUCATION

Bachelor of Technology - Computer Science Engineering | Acharya Nagarjuna University, Guntur 75.4%
2021–2025

TECHNICAL SKILLS

Programming Languages	C#, Java, SQL, JavaScript ES6
Microsoft Technologies	ASP.NET MVC, Entity Framework, .NET Framework, ADO.NET
Web Technologies	HTML5, CSS3, JavaScript, REST APIs, React
Database Technologies	SQL Server, MySQL, SQL Queries, Database Management
Software Development	OOP, SDLC, Agile Methodology, Debugging, Code Review Basics
Version Control	Git, GitHub
Testing Tools	JUnit, Playwright, Functional Testing, Unit Testing

PROJECT EXPERIENCE

Employee Management System - ASP.NET MVC CRUD Application

- Built an employee management web application using ASP.NET MVC, C#, Entity Framework, and SQL Server.
- Implemented CRUD functionality for employee records including adding, updating, deleting, and searching operations.
- Integrated Entity Framework ORM for database communication and efficient data access.
- Designed responsive user interfaces using HTML, CSS, and JavaScript following MVC architecture.
- Applied validation, exception handling, and debugging techniques to improve application performance.

Job Portal - Full Stack Recruitment Platform

- Created a recruitment platform with authentication and role-based access control.
- Applied object-oriented programming concepts to build reusable software components.
- Connected application modules with MySQL database using Java JDBC.
- Performed functional testing, debugging, and enhancement of application workflows.

Railway Reservation System - Java Application

- Developed a Java-based reservation application for ticket booking, cancellation, and PNR management.
- Implemented inheritance, polymorphism, exception handling, and Java Collections.
- Designed database connectivity using JDBC and optimized SQL queries.
- Tested application features and fixed runtime errors.

CERTIFICATIONS

- ASP.NET MVC and Entity Framework Fundamentals — Self Learning
- Full Stack Java Development — CV Corporate Services Private Limited
- Git and GitHub Basics — IBM
- Learning SQL Programming — LinkedIn Learning
- Java Object Oriented Programming — LinkedIn Learning

ACHIEVEMENTS

- Solved 150+ problems on LeetCode and HackerRank focusing on data structures and algorithms.
- Selected among top students for department project development activities.

SOFT SKILLS

Problem Solving | Communication Skills | Team Collaboration | Adaptability | Time Management
